Preface.

We have pleasure in presenting this, the first edition of Henderson's City of Moose Jaw Directory, to our patrons. In preparing this volume we have been gratified to note the mark of steady growth and advancement which is stamped so legibly upon every phase of the City's life and we have endeavoured to faithfully chronicle this progress.

In this edition 2984 names of individuals appear, also the names of 252 firms and corporations, in all 3,236 addresses being given.

We thank our patrons for their increased support, which indicates their faith in the many advantages derived from a thorough, up-to-date Directory. We have endeavoured to express our appreciation by the care we have exercised in seeking to give accurate and complete information.

City of Moose Jaw.

An incorporated city on the main line of the C. P. R., 398 miles West of Winnipeg, and 442 miles East of Calgary. It is midway of the Province of Saskatchewan on the C. P. R. and 96 miles due North of the United States boundary. Located in 1882 by the C. P. R. when under construction crossing the prairies, on account of the water supply in the Moose Jaw River. It is situated in a beautiful valley at the confluence of the Moose Jaw River with Thunder Creek. High lands surround the City on all sides supplying most desirable locations for public institutions and private residences. The banks of the River are high so that perfect drainage is easily provided. The soil is a sandy loam free from mud and gumbo.

The Moose Jaw River dammed by the C. P. R. provides boating all summer for a three mile trip. There is a natural park on the river within the City limits. The City has an area of five square miles. It is regularly laid out with wide streets, and is compactly built; the business portion in the centre, principally brick blocks; private residences, schools and parks, extend to the high lands.

RAILROADS

Moose Jaw is the chief divisional point of the C. P. R. in Saskatchewan and is therefore known as the "Railroad City" of Saskatchewan.

It is the terminus of the Soo Line direct from St. Paul, 168 miles from Portal, where the Soo Line enters Saskatchewan. This Soo Line is the main artery by which thousands of American settlers coming to Western Canada travel.

Moose Jaw is the starting point of the Moose Jaw-Elbow of Saskatchewan line to Lacombe.

The C. P. R. Round House has 33 stalls and in connection therewith extensive machine and repair shops. In the City are located the C. P. R. stock yards, the largest between the ranches and Winnipeg; cost \$30,000. The C. P. R. monthly pay roll, during the busy season, at Moose Jaw, exceeds \$100,000.

POPULATION

In 1901 the population was 1,557.

The Dominion Census taken June, 1906, gave the City a population of 6,249, which placed Moose Jaw at the top of the list as the largest city in Saskatchewan. Since that date the increase has been over 1,000 per year, now estimated at 8,000.

GROWTH OF CITY

The City's growth has been regular and in keeping with all Western cities or towns in their course of development. The assessments were as follows:

1902	\$896,219
1904	\$1,662,990
1906	\$3,951,770
1908	\$9,222,260

The City owns its waterworks, sewers and electric light plant.

NEW BUILDINGS

In 1906, 237 new residences were erected at a total cost of \$446,-275.

In 1907, 262 new residences were erected at a total cost of \$580,-384. The total expenditure—new buildings, schools, City works and C. P. R. improvements in 1906 amounted to over \$1,000,000; in 1907, \$1,170,384.

SCHOOLS AND CHURCHES

The City's schools and churches have kept pace with its business and material progress. The first public school in the old Northwest Territories was organized at Moose Jaw and the City has continued to lead in educational work. Today there are three large brick schools engaging 27 teachers (in collegiate and public school work) 5 of whom are graduates. The capital invested in schools aggregates \$225,000.

The City has 9 churches, the newest of which is the Zion Methodist Church completed last year at a cost of \$81,000. The total value of the church property is estimated at \$275,000.

Banks and Industries

Moose Jaw has 6 Banks, 7 Hotels, 12 wholesale distributing houses, flour mills, brewery, brick yard, nursery, sash and door factory, telephone system, iron machine works, two daily papers, and all lines of business—implement houses, dry goods, grocery, hardware, boots and shoes, drug and confectionery stores, livery stables, etc., etc., are well represented.

PUBLIC OFFICES

The increasing demands not only of the City's population but of the vast district tributary to the City have made Moose Jaw an important centre for Government institutions. Here is located a Dominion Lands Office having under its jurisdiction an area of over 38,000 square miles, in which there are, today, open for settlement 25,000 homesteads; and there are over 9,000 square miles of the district not yet surveyed, that is subdivided for settlement. From the 25th of March, 1907, when the office was first opened until the end of the year 4,499 homestead entries were made. This year the rush continues. In April alone 562 entries were made.

Moose Jaw has a Customs Office, an independent port of entry. The Provincial Post Office Inspector and staff, as well as the Railway Mail superintendent, the chief collector of Inland Revenue for the province and the provincial meteorological office are located here. The old Court House is giving way to a new one now under construction to cost \$57,000. A land titles office is also assured in the near future.

AGRICULTURAL BACKGROUND

The City is surrounded by a rich agricultural background of 1,785,000 acres which, (although in a measure neglected for years for the reason that there were not enough settlers coming to Western Canada to occupy all the land from Winnipeg to Moose Jaw), is now coming to its own. Today the Moose Jaw district is recognized as one of the best wheat growing districts in the West. In 1905 the average yield per acre of wheat in the district was 27.56 bushels (Government Statistics), in 1906, 24.3 bushels. In 1907, with all the season's drawbacks wheat yielded from 12 to 30 bushels per acre, the greater part of which graded 1, 2, or 3, Northern. The district is equally noted for its flax and oat crop.

CITIZENS

A word may be said about the citizens of Moose Jaw and the district tributary. They are all English speaking. The pioneers in the early 80's came from Ontario. They have been the foundation as well as prominent pillars in the superstructure of Moose Jaw's success. A continuous flow has been coming from Ontario every year.

In recent years the Maritime Provinces have sent a considerable quota. Old Quebec has added French Canadians. Many have come direct from Great Britain—English, Irish and Scotch.

A large number of Americans from a dozen states in the Union are here to stay. Add to all these a sprinkling of Germans, Norwegians and Swedes, all English speaking, and the admixture is sufficient to banish sectionalism and at the same time to develop the best that is in each; Canadians in the widest sense of the word.

The undivided support given to public schools and higher education by all classes in Moose Jaw indicates true citizenship for in our halls of learning the Dominion over, are educated the men and women in whose hands the destiny of Canada will be moulded.

OUTLOOK

A glance at the railway map of Western Canada shows that Manitoba and the Eastern part of Saskatchewan are today gridironed with railways and their branch lines. The day of railway expansion in these is drawing to a close, with Moose Jaw and the Moose Jaw district it is only dawning. Settlers are pouring into the district. Those who drive 30, 50 and 80 miles to reach market, are today clamoring for railway facilities. Branch lines will be built ere long. The C. P. R. line will be completed Northwest to Lacombe; a short

line will be built from Moose Jaw south to Wood Mountain where coal is found in abundance. Assurances are given that the C. N. R. will not stay its hand in South Saskatchewan half way across the Province. The G. T. P. will go where business calls.

Moose Jaw does not live on past achievements. The present is the time for action. With a new Collegiate Institute, to cost \$100,000 in sight; with a new court house under construction, with a new land titles office assured; with thousands of new settlers pouring into the district, Moose Jaw, the trading centre of an area half the size of the settled portion of Manitoba, will continue its onward march of progress and success.

There is every opportunity for the agent to strengthen his service department by improving upon his client's literature.

No matter how high-class and capable an agent is, assistance from an experienced printer will not come amiss.

Henderson Brothers

of Winnipeg

have turned out probably more exceptionally good literature than any other printer in the west

There service is made up half of excellent technical workmanship and half of personality.

Let them strengthen your campaign with high-grade booklets or catalogs.

THE **HB** SIGN
OF EXCELLENCE

Henderson Bros., Winnipeg
Printing and Bookbinding

MOST successful men appear successful.
You may never see the man himself.

It is his letter-head, his envelope, his business card, his circular, or his catalogue. We size him up by that. You would not say a man was successful if he sent you a business head on wrapping paper.

The man who has made a success of business leaves the things he does not know anything about to those who are competent. John Wanamaker says that his business success has been attained by knowing where to get men who could do well what he cannot do passably.

Putting work in the hands of people who will do it in the right way ; this is the first stepping-stone to a successful man's success.

Printing & Bookbinding

279 Garry Street

-

Winnipeg, Manitoba

PUTTING brains into your printed matter is just as essential as to put brains into the management of your business. Too often the demands of the latter are such that you can give but little time to the former. Furthermore the production of a high-grade catalogue is a specialty and you cannot be expected to master the details of the business. It is, therefore, necessary in order to secure the kind of advertising matter that attracts attention and sells goods to summon to your aid a printer who "puts brains" into his work. As you have cuts to make, and designing of a cover or title, or running head, you do not want to be dealing with two or three different concerns, because when their product comes together in the book it will be one chance in a thousand if there is harmony in size, conception, etc. The complete builder of catalogues is the one best equipped to serve you, and it is just as essential for you to select a firm of standing and reliability whom you know to be equipped to serve you as it is to select a reliable builder of a machine tool.

WEATHER REPORT: Rain, followed by Clearing Weather and Sunshine

FROM A STUDY IN EXPRESSION

People have learned a whole lot about printing and good taste and art. As they have learned more they require more. The people are yearly more appreciative of the artistic and of the appearance of things. There are more men in business now than ever before, but there are fewer than ever who do not see the force of reason in attractive, interesting and convincing printed matter.

GALT COAL

C. W. MILESTONE, General Agent

WHOLESALE & RETAIL
Office, River St. W., near McLean's Mill PHONE 48
P. O. BOX 1078

THE ability to buy cheaply is one of the most important attributes of commercial success.

THERE is one exception, however.

A MAN cannot buy printed matter as he would iron, or paper, or machinery.

FOR good printed things are made up just as much of brains as they are of presswork and technical skill.

Henderson Brothers of Winnipeg

can put personality into your printing, because of their experience in turning out the most splendid examples of commercial literature in the west.

IT would not be amiss to let them explain their unusual facilities at 279 Garry Street, Phones 7224 and 7225, P.O. Box 39, Winnipeg, Man.
